October 2002

This October 2002 *Institutional Plan* was originally prepared in the early spring of 2002. It generally describes the activities and plans of Argonne National Laboratory as of that time. Thus, for example, financial data for FY 2002 are mid-year projections. In addition, a few selected revisions to the *Draft Institutional Plan* of May 2002 are included to reflect comments received and major shifts in plans.
